DETAILED ACTION

Claim Objections

1. Claims 13, 14, 46 and 47 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 12 teaches that the breaker is an alcohol released from a precursor of an alkyl sulfate, which differs from the mechanism and compounds of claims 13 and 14.

Claims 46 and 47 teach that the breaking system is released by slow dissolution of the compounds therein, whereas parent claim 42 teaches that the system involves melting a precursor of a breaker.

2. Claims 2, 3, 7, 9, 10, 12, 15, 19, 20, 22, 23, 29, 33-35, 37, 42, 43, 45 and 48 are allowable over the art of record.

3. Applicants amendment distinguishes over Vollmer, since the present claims do not disclose an acid forming compound which may act as a breaker in the viscoelastic surfactant containing fluid. New objections are presented herein.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
